

PACIFICOTE SAGE

Pacificote Sage is our coated four product. Manufactured at Catalyst's Port Alberni mill, this high-quality, coated paper is high-bright, high-gloss with superior printability and runnability, making it ideal for heatset offset printing.

REPORTS

Our Sage line of products are the greenest of our great specialty papers, offering a verifiable environmental pedigree and chain of custody system. And, \$1 of every tonne of Sage paper sold goes to support the work of GreenBlue, a non-profit institute working with the private sector to redesign industrial systems.

Competitive Advantage

- » **Environmentally Preferred** – 100% certified fibre obtained from sustainably managed forests
- » **Higher Caliper** – Means you get the bulk and 'feel' you are looking for, with the cost efficiency of using a lighter basis weight paper
- » **Third-Party Verification** – Backed with PEFC chain of custody and manufactured carbon-neutral using ISO standards
- » **Transparency** – Visibility of environmental footprint provided through Metafore's Environmental Paper Assessment Tool, a project of GreenBlue
- » **Relationships** – Constructive engagement with broad network of environmental groups and known for technical and service excellence
- » **Blue-White Shade** – Means excellent reproduction, opacity and contrast
- » **Excellent Printability** – Superb snap, contrast, whiteness, holdout, print quality and gloss for overall excellent print appearance
- » **Superior Runnability** – Continues to maintain our tradition as a top quartile pressroom performer
- » **Flexible and Responsive** – Exceptional service and delivery to both local customers and national accounts; location advantage for west coast and central North American printers
