## Notes to the Consolidated Financial Statements

---

### 1. Basis of presentation

Effective for the year ended December 31, 2009, the Company adopted U.S. generally accepted accounting principles ("U.S. GAAP") for presentation of its consolidated financial statements for Canadian and United States reporting requirements. Historically, the Company has presented its annual and interim consolidated financial statements in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") with reconciliation in its annual consolidated financial statements to U.S. GAAP for material recognition and measurement differences. As a result of this transition to U.S. GAAP, the Company has presented its 2009 annual audited consolidated financial statements in accordance with U.S. GAAP, including a reconciliation to Canadian GAAP for material recognition and measurement differences in note 33, "Reconciliation of United States and Canadian Generally Accepted Accounting Principles" and restated its interim consolidated financial statements for 2009.

The restated interim consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. These unaudited restated interim consolidated financial statements do not include all information and note disclosures required by GAAP for annual financial statements, and therefore should be read in conjunction with the December 31, 2009 audited consolidated financial statements and the notes thereto. In the opinion of the Company, the unaudited interim consolidated financial statements contained herein contain all the information and note disclosures necessary to fairly present the results of the interim periods included. The results for the periods included herein may not be indicative of the results for the entire year.

The consolidated financial statements include the accounts of the Company and, from their respective dates of acquisition of control or formation, its wholly-owned subsidiaries and partnerships. In addition, the consolidated financial statements include the accounts of the Company's joint venture, Powell River Energy Inc., a variable interest entity. All inter-company transactions and amounts have been eliminated on consolidation.

### 2. Segmented information

The Company operates in three business segments:

Specialty printing papers	–	Manufacture and sale of mechanical specialty printing papers
Newsprint	–	Manufacture and sale of newsprint
Pulp	–	Manufacture and sale of long-fibre Northern Bleached Softwood Kraft ("NBSK") pulp (prior to November 18, 2008, pulp segment included manufacture of short-fibre NBSK pulp and white top linerboard)

The segments are managed separately. Five manufacturing facilities, including a paper recycling facility, are located in the province of British Columbia, Canada and one manufacturing facility is located in Arizona, U.S.A. Inter-segment sales consist of pulp transfers at cost.

### 3. Significant accounting policies

#### Recently implemented accounting standards

In July 2009, the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") became the single source of authoritative U.S. GAAP for non-governmental entities. The ASC hierarchy consists of two levels, authoritative literature, and non-authoritative literature. The ASC does not change GAAP, rather, it is designed to simplify access to and research on authoritative GAAP. The authority of the rules and interpretive releases of the SEC have not changed as a result of the implementation of the ASC. The ASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company adopted the FASB ASC in the preparation of these interim consolidated financial statements.

In May 2009, the FASB issued a new Subsequent Events Topic in the ASC, which establishes general standards of accounting for and disclosure of subsequent events. The Topic is based on the same principles as those that currently exist in the auditing standards and requires disclosure of the date through which an entity has evaluated subsequent events and is effective for interim or annual financial periods ending after June 15, 2009. The Company adopted the disclosure requirements of this Topic in the preparation of these interim consolidated financial statements.

## CATALYST PAPER CORPORATION

(in millions of Canadian dollars, except where otherwise noted)

(unaudited)

### Notes to the Consolidated Financial Statements

#### 3. Changes in significant accounting policies ... continued

In March 2008, the FASB amended the Derivatives and Hedging Topic of the ASC. The amendments expand quarterly disclosure requirements about an entity's derivative instruments and hedging activities. The amendments are effective for fiscal years beginning after November 15, 2008. The Company adopted the disclosure requirements of this Topic in the preparation of these interim consolidated financial statements.

In December 2007, the FASB amended the Consolidation Topic of the ASC as it relates to the Presentation and Disclosure for entities that have equity investments that are not attributable directly to the parent, called non-controlling interests or minority interests. The amendments establish where and how to report non-controlling interests in the consolidated statements of financial position and operations, how to account for changes in non-controlling interests and provides disclosure requirements. The amendments are effective for fiscal years beginning on or after December 15, 2008. The Company adopted the amendments in the preparation of these interim consolidated financial statements.

#### Future accounting changes to be implemented

In June 2009 the FASB amended the Consolidation Topic of the ASC, as it relates to the consolidation of VIE. The amendments change how an entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. Qualified special-purpose entities will no longer be exempt from consolidation requirements. The determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. The amendments to this Topic become effective on January 1, 2010. The Company is currently assessing the impact that the amendments will have on its financial statements or disclosures.

In December 2008, the FASB amended the Compensation-Retirement Benefits Topic of the ASC. The amendments provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other post-retirement plan and require disclosures surrounding how investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies. Additional disclosures include (a) the major categories of plan assets, (b) the inputs and valuation techniques used to measure the fair value of plan assets, and (c) the effect of fair value measurements using significant unobservable inputs on changes in plan assets for the period and the significant concentrations of risk within plan assets. The disclosures are effective for fiscal years ending after December 15, 2009. Upon initial application, the amendments to this Topic are not required for earlier periods that are presented for comparative purposes.

#### 4. Restructuring costs

	<i>Six months ended June 30, 2009</i>			
	<i>2007 Initiatives</i>	<i>2008 Initiatives</i>	<i>2009 Initiatives</i>	<i>Total</i>
Balance, beginning of period	\$ 8.2	\$ 8.1	\$ –	\$ 16.3
Expensed in period	–	3.0	13.5	16.5
Disbursements	(5.7)	(6.5)	(1.9)	(14.1)
Other non-cash items	0.4	–	–	0.4
	<u>2.9</u>	<u>4.6</u>	<u>11.6</u>	<u>19.1</u>
Less: portion related to employee future benefits	–	–	(5.6)	(5.6)
Balance, end of period	<u>\$ 2.9</u>	<u>\$ 4.6</u>	<u>\$ 6.0</u>	<u>\$ 13.5</u>
<b>Classification:</b>				
Accounts payable and accrued liabilities	\$ 2.4	\$ 3.9	\$ 3.8	\$ 10.1
Other long-term obligations	0.5	0.7	2.2	3.4
	<u>\$ 2.9</u>	<u>\$ 4.6</u>	<u>\$ 6.0</u>	<u>\$ 13.5</u>

On May 26, 2009, the Company announced a restructuring plan to reduce the level of salaried staff positions, comprising of permanent reductions at the Richmond and Nanaimo offices and indefinite layoffs at the Crofton and Elk Falls mills where significant production capacity has been indefinitely curtailed. One-time severance costs associated with this reduction are estimated to not exceed \$3 million.

For the three months ended June 30, 2009, the Company recorded restructuring costs of \$12.3 million, primarily related to the above reduction of salaried staff positions and a restructuring initiative at Powell River announced in the prior quarter.

## CATALYST PAPER CORPORATION

(in millions of Canadian dollars, except where otherwise noted)

(unaudited)

### Notes to the Consolidated Financial Statements

#### 5. Inventories

	<i>June 30, 2009</i>	<i>December 31, 2008</i>
Finished goods		
Specialty printing papers	\$ 25.9	\$ 25.6
Newsprint	7.9	8.7
Pulp	–	18.8
Total finished goods	33.8	53.1
Work-in-progress	0.5	1.7
Raw materials – wood chips, pulp logs and other	30.5	46.1
Operating and maintenance supplies and spare parts	108.2	110.5
<b>Total</b>	<b>\$ 173.0</b>	<b>\$ 211.4</b>

At June 30, 2009, the Company had applied write-downs of \$1.4 million to finished goods inventory (December 31, 2008 – \$2.7 million) and \$4.6 million to raw materials inventory (December 31, 2008 – \$9.6 million).

#### 6. Property, plant and equipment

The Company's paper machines at Elk Falls and Crofton Pulp operations continue to be indefinitely curtailed. The Company is monitoring market and other conditions and will assess whether they improve sufficiently to allow these operations to be placed back into production. To the extent that conditions do not improve to the levels necessary to restart these operations, an impairment charge may result in the future as a result of the Company's assessment of recoverability of the carrying value of its assets. As at June 30, 2009, the net book values for these assets were approximately \$253 million for the Elk Falls paper site, and approximately \$120 million for the Crofton pulp operations.

#### 7. Long-term debt

	<i>June 30, 2009</i>	<i>December 31, 2008</i>
<b>Recourse</b>		
Senior notes, 8.625% due June 2011 (US\$354.2 million; December 31, 2008 – US\$400.0 million)	\$ 413.0	\$ 492.2
Senior notes, 7.375% due March 2014 (US\$250.0 million)	294.7	311.0
	707.7	803.2
Revolving asset based loan facility of up to \$330.0 million due August 2013 with interest based on Canadian Prime/BA rates or U.S. Base/Prime/LIBOR rates	–	60.1

### Notes to the Consolidated Financial Statements

#### 7. Long-term debt ... continued

Collateral provided on the \$330.0 million revolving asset based loan facility ("ABL Facility") consists of accounts receivable, inventories and cash of the Company as well as a first charge on the property, plant and equipment of the Company's Snowflake mill. Availability under the ABL Facility is determined by a borrowing base calculated primarily on balances of eligible accounts receivable and inventories, less certain reserves. Financial covenants under the ABL Facility must be maintained based upon the Company's financial results prepared under Canadian GAAP. The ABL Facility includes financial covenants to (a) maintain shareholders' equity above \$639.0 million as at June 30, 2009, (b) maintain excess availability above \$35 million, and (c) to not make capital expenditures in excess of 120% of the Company's annual budget. The minimum equity requirement is reduced by the amount of any non-cash write-downs of property, plant and equipment as a result of a permanent discontinuance of operations. At June 30, 2009, as calculated under the ABL Facility, the shareholders' equity was \$898.5 million (December 31, 2008 – \$870.0 million). The borrowing base at June 30, 2009 was \$159.4 million and after outstanding letters of credit of \$24.8 million, \$134.76 million was available to the Company, in addition to cash on hand of \$41.6 million. The borrowing base at June 30, 2009 includes a reserve of \$15.1 million for unpaid property taxes and associated penalties.

At June 30, 2009, the Company was in compliance with the covenants under both its ABL Facility and senior notes. The Company's Fixed Charge Coverage Ratio ("FCC Ratio") under the senior note indentures, calculated on a 12-month trailing average, was 2.8:1 at June 30, 2009 (December 31, 2008 – 2.1:1). When the FCC Ratio is below 2.0:1, the Company is limited in the amount of additional debt it may incur to "permitted debt" under the senior notes. Under the indenture for the 8.625% senior notes, "permitted debt" includes (a) the Company's existing 8.625% notes and 7.375% notes, (b) a credit facility basket in an amount equal to the greater of (i) \$725 million and (ii) the sum of 75% of the book value of the Company's accounts receivable, 50% of the book value of the Company's inventory and \$290 million, against which in either case utilization under the Company's \$330 million ABL Facility is applied, (c) purchase money debt and capitalized lease obligations in an amount equal to 5.0% of the Company's consolidated tangible assets, (d) a \$40 million general basket, and (e) a \$5 million basket for accommodation guarantees, trade or standby letters of credit, performance bonds, bankers' acceptances and surety bonds. The indenture for the 7.375% notes contains larger debt baskets, but while the 8.625% notes remain outstanding, the Company is bound by their more restrictive provisions. Also, the Company's restricted payments baskets under the 8.625% and 7.375% senior notes were negative \$137.4 million and negative \$112.4 million, respectively, as at June 30, 2009, as a result of accumulated losses in recent years (December 31, 2008 – negative \$109.8 million and negative \$84.8 million, respectively). Under the senior note covenants, the Company cannot pay dividends unless the balance in these baskets is positive.

Non-recourse debt is debt owed by the Company's subsidiary Powell River Energy Inc. ("PREI"), of which \$74.9 million has been re-classified to non-current liability (December 31, 2008 – \$74.9 million) as PREI has secured a twelve-month bridge-financing commitment as at June 30, 2009. The Company has a 50% interest in PREI, and consolidates 100% of it as PREI is a variable interest entity in which the Company is the primary beneficiary.

The Company's long-term debt is recorded at amortized cost. The following table contains information about management's best estimate of the fair value of the Company's debt at:

	<i>June 30, 2009</i>		<i>December 31, 2008</i>	
	<i>Carrying Value</i>	<i>Fair Value</i>	<i>Carrying Value</i>	<i>Fair Value</i>
Recourse	\$ 719.4	\$ 382.7	\$ 875.5	\$ 414.3
Non-recourse	94.4	94.7	94.4	95.8

The fair value of the Company's long-term recourse debt related to its senior notes is determined based on quoted market prices of identical debt instruments. The fair value of the Company's recourse debt related to the ABL Facility and non-recourse debt related to the first mortgage bonds is measured by discounting the respective cash flows at quoted market rates for similar debt having the same maturity. In measuring fair value, the Company incorporates credit valuation adjustments to appropriately reflect its own non-performance risk, where appropriate. The carrying value of other long-term debt approximates its fair value.

#### 8. Employee future benefits

The Company maintains pension benefit plans, which include defined benefit and defined contributions segments that are available to all salaried employees and to hourly employees not covered by union pension plans. Employees hired subsequent to January 1, 1994 enroll in the defined contribution segment. Unionized employees of the Company are members of multi-employer industry-wide pension plans to which the Company contributes a predetermined amount per hour worked by an employee.

The Company also provides other benefit plans consisting of provincial medical plan premiums, extended health care and dental benefits to eligible retired employees and their dependents.

### Notes to the Consolidated Financial Statements

#### 8. Employee future benefits ... continued

For the three and six month periods ended June 30, 2009, the Company incurred a total post-retirement benefit cost of \$10.5 million and \$22.4 million, respectively (three and six month periods ended June 30, 2008 – \$12.3 million and \$25.0 million, respectively).

The Company contributed \$6.4 million and \$15.1 million, respectively for the three and six month periods ended June 30, 2009 (three and six month periods ended June 30, 2008 – \$7.0 million and \$15.1 million, respectively) to the pension plans. The Company also contributed \$1.8 million and \$3.5 million for the three and six month periods ended June 30, 2009, respectively (three and six month periods ended June 30, 2008 – \$2.0 million and \$3.2 million, respectively) to the other post-retirement benefit plans.

#### Components of net periodic benefit cost for pension plans and other post-retirement benefit plans

	<i>Three months ended June 30, 2009</i>		<i>Three months ended June 30, 2008</i>	
	Pension plans	Other post-retirement benefit plans	Pension plans	Other post-retirement benefit plans
<b>Defined benefit costs</b>				
Employer service cost	\$ 1.0	\$ 0.6	\$ 1.3	\$ 1.2
Interest cost	5.6	2.8	4.8	2.9
Actual return on assets	(3.8)	–	(4.8)	–
Actuarial (gains) losses	0.1	–	–	–
Difference between actual and recognized actuarial (gains) losses	0.9	(0.2)	1.2	0.5
Difference between actual and recognized prior service (credits) costs	0.1	(0.1)	–	(0.1)
<b>Net periodic benefit cost</b>	<b>\$ 3.9</b>	<b>\$ 3.1</b>	<b>\$ 2.5</b>	<b>\$ 4.5</b>

	<i>Six months ended June 30, 2009</i>		<i>Six months ended June 30, 2008</i>	
	Pension plans	Other post-retirement benefit plans	Pension plans	Other post-retirement benefit plans
<b>Defined benefit costs</b>				
Employer service cost	\$ 2.0	\$ 1.2	\$ 2.6	\$ 2.3

### Notes to the Consolidated Financial Statements

#### 9. Accumulated other comprehensive income (loss)

The following table contains information about the accumulated other comprehensive loss of the Company, net of taxes:

	<b>June 30, 2009</b>	<b>December 31, 2008</b>
Unrecognized pension and other post-retirement benefits costs	<b>\$ (40.2)</b>	\$ (41.5)
Foreign currency translation adjustments, net of related hedging activities and taxes of \$3.3 million (2008 – \$4.7 million) <sup>(1)</sup>	<b>4.8</b>	6.7
Unrecognized gains (losses) on cash flow revenue and purchase price hedges	<b>1.2</b>	(11.6)
Unrecognized loss on interest rate hedges	<b>(1.1)</b>	–
	<b>\$ (35.3)</b>	\$ (46.4)

(1) The accumulated net adjustment is comprised of an accumulated non-taxable translation gain of \$25.7 million (2008 – \$36.7 million), and an accumulated net loss on the revaluation of long-term debt designated as a net investment hedge of \$20.9 million (2008 – \$30.0 million), net of tax of \$3.3 million (2008 – \$4.7 million).

#### 10. Fair value measurements

An established fair value hierarchy requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is available and significant to the fair value measurement. There are three levels of inputs that may be used to measure fair value:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, such as quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Inputs that are generally unobservable and are supported by little or no market activity and that are significant to the fair value determination of the assets or liabilities.

The following table presents information about the fair value of the Company's derivative and non-derivative instruments designated as hedging instruments and measured or disclosed at fair value on a recurring basis at June 30, 2009:

	<b>June 30, 2009</b>	<b>Fair value hierarchy</b>	<b>Balance sheet classification</b>
<b>Assets</b>			
Currency contracts	\$ 1.9	2 <sup>(1)</sup>	Prepays and other
Currency contracts	1.9	2 <sup>(1)</sup>	Other assets
	<b>\$ 3.8</b>		

The following table presents information about the fair value of the Company's derivative and non-derivative financial instruments not designated as hedging instruments and measured at fair value on a recurring basis at June 30, 2009:

	<b>June 30, 2009</b>	<b>Fair value hierarchy</b>	<b>Balance sheet classification</b>
<b>Assets</b>			
Currency contracts	\$ 0.1	2 <sup>(1)</sup>	Other assets
Commodity swap contracts	1.2	2 <sup>(2)</sup>	Prepays and other
	<b>\$ 1.3</b>		

## CATALYST PAPER CORPORATION

*(in millions of Canadian dollars, except where otherwise noted)*

### Notes to the Consolidated Financial Statements

#### 10. Fair value measurements ... continued

	June 30, 2009	Fair value hierarchy	Balance sheet classification
<b>Liabilities</b>			
Currency contracts	\$ 2.6	2 <sup>(1)</sup>	Accounts payable and accrued liabilities
Commodity swap contracts	0.1	2 <sup>(2)</sup>	Accounts payable and accrued liabilities
	<u>\$ 2.7</u>		

Fair value of the Company's derivatives are classified under Level 2 (inputs that are observable; directly or indirectly) as they are measured as follows:

- (1) The fair value of forward currency contracts is measured using the discounted difference between contractual rates and market future rates. Interest rates, forward market rates and volatility are used as inputs for such valuation techniques. The Company incorporates credit valuation adjustments to appropriately reflect both its own non-performance risk and the counterparty's non-performance risk in the fair value measurements.
- (2) The fair value of commodity swap contracts is measured using the discounted difference between contractual rates and market rates. The fair value of natural gas commodity options is measured using techniques derived from the Black-Scholes pricing model. The Company incorporates credit valuation adjustments to appropriately reflect both its own non-performance risk and the counterparty's non-performance risk in the fair value measurements.

#### 11. Financial instruments

##### (a) Financial risk management

Financial instruments of the Company consist primarily of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and long-term debt. Cash and cash equivalents are designated as held for trading and recorded at fair market values. Accounts receivable are designated as loans and receivables and are recorded at amortized cost. Accounts payable and accrued liabilities and long-term debt are designated as other liabilities and recorded at amortized cost. The Company has no non-derivative financial instruments classified as available for sale or held to maturity. Financial instruments of the Company also include derivatives which the Company uses to reduce its exposure to currency and price risk associated with its revenues, energy costs and long-term debt. A summary of the Company's financial risk management objectives can be found on pages 97 to 99 of the Company's 2008 Annual Report.

##### Accounts receivable

The Company is exposed to credit risk on accounts receivable from its customers who are mainly in the newspaper publishing and commercial printing businesses. Aging of receivables was as follows:

	<u>June 30, 2009</u>	<u>December 31, 2008</u>
Trade receivables, gross		
Current	\$ 107.5	\$ 177.8
Past due 1-30 days	13.7	24.5
Past due 31-90 days	3.0	4.0
Past due over 90 days	8.4	0.3
	<u>132.6</u>	<u>206.6</u>
Allowance for doubtful accounts	(3.9)	(3.2)
Trade receivables, net	<u>128.7</u>	<u>203.4</u>
Other receivables, including GST recoverables	8.3	18.3
Accounts receivable	<u>\$ 137.0</u>	<u>\$ 221.7</u>

## CATALYST PAPER CORPORATION

(in millions of Canadian dollars, except where otherwise noted)

(unaudited)

### Notes to the Consolidated Financial Statements

#### 11. Financial instruments ... continued

The movement in the allowance for doubtful accounts in respect of trade receivables was as follows:

	<b>Six months ended June 30, 2009</b>	<b>Year ended December 31, 2008</b>
Balance, beginning of period	\$ 3.2	\$ 2.8
Increase in provision	1.0	3.1
Utilized in the period	(0.3)	(2.7)
Balance, end of period	\$ 3.9	\$ 3.2

#### (b) Revenue risk management instruments

Foreign currency options and forward contracts outstanding to sell U.S. dollars were as follows:

<b>Term</b>	<b>Options</b>				<b>Forward contracts</b>	
	<b>Purchased US\$ put</b>		<b>Sold US\$ call</b>			
	<b>US\$millions</b>	<b>Average rate US\$/CDN\$</b>	<b>US\$millions</b>	<b>Average rate US\$/CDN\$</b>	<b>US\$millions</b>	<b>Average rate US\$/CDN\$</b>
<b><u>As at June 30, 2009</u></b>						
0 to 12 months	\$ 299	0.9378	\$ 166	0.8378	\$ 15	0.8177
13 to 24 months	57	0.8908	54	0.7834	3	0.7827
	\$ 356	0.9298	\$ 220	0.8238	\$ 18	0.8115
<b><u>As at December 31, 2008</u></b>						
0 to 12 months	\$ 501	0.9553	\$ 302	0.8810	\$ 14	0.7805
13 to 24 months	55	0.9674	10	0.8877	–	–
	\$ 556	0.9565	\$ 312	0.8812	\$ 14	0.7805

The effective portion of changes in the fair value of derivatives that qualify and are designated as cash flow hedges are deferred and recorded in "Accumulated other comprehensive income (loss)" ("AOCI"), a component of shareholders' equity. When the underlying transaction is recorded in earnings, the corresponding gain or loss on the hedged item is reclassified from AOCI to "Sales". Any ineffective portion of a hedging derivative's change in fair value and the portion that is excluded from the assessment of hedge effectiveness is recognized immediately in "Sales". At June 30, 2009, instruments having a notional principal of US\$281 million are designated as hedging instruments. At period-end exchange rates, the net amount the Company would receive to settle the above contracts and options is \$1.2 million (December 31, 2008 – negative \$26.9 million).

At June 30, 2009, a commodity swap agreement to fix the spread between the sales price of newsprint and purchase price of old newspaper ("ONP") within the next five months is outstanding for 5,000 tonnes. This contract is not designated as a hedging instrument for accounting purposes and is reported at its fair value, which was \$1.0 million at the end of the current quarter (December 31, 2008 – \$0.7 million).

#### (c) Cost risk management instruments

The Company is party to commodity options to hedge the purchase price of natural gas for 0.6 million gigajoules ("GJ") (December 31, 2008 – 0.5 million GJ) within the next nine months at rates averaging \$6.51 per GJ. These instruments are not designated as hedging instruments for accounting purposes and are reported at fair value. At period-end contract rates, the net amount the Company would receive to settle these commodity contracts is \$0.2 million (December 31, 2008 – negative \$0.8 million).

At June 30, 2009, commodity swap agreements to fix the purchase price of ONP within the next four months are outstanding for 16,000 tonnes. These contracts are not designated as hedging instruments for accounting purposes and are reported at their fair value which was negative \$0.1 million at the end of the current quarter (December 31, 2008 – negative \$0.9 million).

## CATALYST PAPER CORPORATION

(in millions of Canadian dollars, except where otherwise noted)

(unaudited)

---

### Notes to the Consolidated Financial Statements

---

#### 11. Financial instruments ... continued

##### (d) Long-term debt risk management instruments

During the three months ended June 30, 2009, the Company unwound US\$74.9 million of its long-term notional debt hedge positions for proceeds of \$10.4 million.

At June 30, 2009, the Company is party to forward foreign currency contracts or options to acquire U.S. dollars totalling US\$20 million (December 31, 2008 – US\$190 million) over a three month period at rates averaging US\$/CDN\$0.8128. These instruments are not designated as hedging instruments for accounting purposes, and are included in "Other assets" on the balance sheet at their fair value. Settlements and changes in fair value are recognized in "Foreign exchange gain (loss) on long-term debt". At period-end exchange rates, the net amount the Company would receive to settle these contracts is \$0.1 million (December 31, 2008 – \$34.2 million).

#### 12. Comparative figures

Certain comparative figures presented in the interim consolidated financial statements have been reclassified to conform to the current period presentation.

#### 13. Subsequent events

The Company has evaluated its subsequent events to July 30, 2009.

- a) On July 24, 2009, PREI raised \$95 million of 6.45% first mortgage bonds maturing in July 2016, and non-recourse to the Company, to refinance \$75 million of 6.387% non-recourse debt due on July 24, 2009. The Company has a 50% interest in PREI and after fees and other expenses, \$9 million in funds will be distributed to the Company as a result of this financing.
- b) CIT Business Credit Canada Inc. ("CITBCC") is the agent of the Company's \$330 million ABL Facility. CITBCC is jointly owned by Canadian Imperial Bank of Commerce ("CIBC") and CIT Group, Inc. ("CIT"). CIT is reported to be experiencing significant liquidity issues and has stated it is reviewing available alternatives. While the Company understands that CITBCC has separate and adequate funding, the Company decided it was prudent to draw \$30.0 million under its ABL Facility in July, 2009. This amount is in addition to the \$41.6 million of cash the Company had as at June 30, 2009.

CITBCC's commitment is \$125 million of the \$330 million ABL Facility. Failure by any lender to fund its rateable share does not relieve the other lenders of their obligations to fund their rateable shares. The ABL Facility structure also incorporates a cash management line of \$25 million with Royal Bank of Canada and a US revolving facility of \$30 million with JPMorgan Chase Bank, N.A. Other than \$4.9 million (US\$4.3 million) in letters of credit applied against the US revolving facility, these facilities are undrawn at present, such that the Company should retain access to these facilities notwithstanding any challenges faced by CITBCC in meeting its funding commitments under the ABL Facility.

### Notes to the Consolidated Financial Statements

#### 14. Reconciliation of United States and Canadian generally accepted accounting principles

The Company's consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which differ in some respects from Canadian GAAP. The following are the significant measurement and disclosure differences between U.S. and Canadian GAAP:

##### Net earnings (loss) adjustments

The following table provides a reconciliation of the net earnings (loss) from U.S. GAAP to Canadian GAAP:

	<i>Three months ended June 30,</i>		<i>Six months ended June 30,</i>	
	<b>2009</b>	<b>2008</b>	<b>2009</b>	<b>2008</b>
Net earnings (loss) as reported under U.S. GAAP	\$ (3.0)	\$ (122.1)	\$ 17.2	\$ (160.1)
Net (earnings) loss attributable to non-controlling interest (a)	1.1	0.2	1.0	(0.3)
Foreign exchange gain on hedge of net investment (b)	–	(2.4)	–	(2.4)
Amortization related to hedge of net investment (b)	–	–	0.2	–
Income tax effect of rate change on employee future benefits	–	–	0.7	1.1
Net earnings (loss) in accordance with Canadian GAAP	<b>(1.9)</b>	(124.3)	<b>19.1</b>	(161.7)
Other comprehensive income, net of taxes:				
Other comprehensive income (loss) in accordance with U.S. GAAP	5.6	(3.8)	11.1	(9.4)
Reclassification of amortization of employee future benefits included in pension cost (d)	<b>(0.6)</b>	(1.2)	<b>(1.3)</b>	(2.4)
Comprehensive income (loss) in accordance with Canadian GAAP	<b>\$ 5.0</b>	\$ (5.0)	<b>\$ 9.8</b>	\$ (11.8)
Basic and diluted net earnings (loss) per share in accordance with Canadian GAAP (in dollars)	\$ –	\$ (0.34)	\$ 0.05	\$ (0.56)
Basic and diluted weighted average number of shares in accordance with Canadian GAAP (in millions)	<b>381.8</b>	365.2	<b>381.8</b>	290.0

(unaudited)

---

### Notes to the Consolidated Financial Statements

---

#### 14. Reconciliation of United States and Canadian generally accepted accounting principles ... continued

**(a) Non-controlling interest**

Under U.S. GAAP, non-controlling interest's equity or deficit is reported as a separate component within equity of the consolidated balance sheet and consolidated net earnings (loss) and other comprehensive income (loss) attributable to the Company and to the non-controlling interest is clearly identified and presented on the face of the consolidated statements of earnings (loss), comprehensive income (loss), and equity. Under Canadian GAAP, the Company includes non-controlling interest's equity or deficit in "Other assets" and the non-controlling interest's share of earnings or loss is excluded from consolidated net earnings (loss).

**(b) Foreign exchange on hedge of net investment**

Under U.S. GAAP, the foreign exchange gain on a hedge of a net investment is recognized in earnings, and accordingly, the net investment acquired is not reduced by the amount of the gain. Under Canadian GAAP, the Company designated a forward contract as a hedge of the purchase price on the acquisition of the Snowflake newsprint mill, and accounted for the respective foreign exchange gain as a reduction of the net investment.

**(c) Employee future benefits**

U.S. GAAP requires the recognition of the overfunded or underfunded status of a defined benefit post-retirement plan as an asset or liability in the balance sheet and requires that changes in that funded status in the year in which the changes occur be recorded in other comprehensive income (loss). As a result, as amounts that relate to the funded status are recognized in earnings through pension expense, the amounts are reclassified out of accumulated other comprehensive income (loss). Canadian GAAP does not require recognition of the overfunded or underfunded status of a defined benefit post-retirement plan. There is no GAAP difference between U.S. and Canada in the determination of pension and other employee future benefits expense.

**(d) Deferred financing costs**

Under U.S. GAAP, debt issue costs are reported on the balance sheet as deferred charges in "Other assets." Under Canadian GAAP, debt issue costs related to the Company's senior notes are netted against the carrying value of long-term debt on the consolidated balance sheet.

**(e) Consolidated cash flows**

Under Canadian GAAP, the consolidated cash flows would not be significantly different from the presentation under U.S. GAAP, except that Canadian GAAP allows sub-totals within cash flows provided by operations.
