See our product listings at
www.catalyst.com/products

100% of our forest fibre is low risk using the FSC risk assessment process and comes with the SFI Certified Sourcing designation promoting responsible forestry activities

90% of our energy comes from renewable sources

82% greenhouse gas reduction since 1990

46% of our solid waste is beneficially reused

Long-standing relationships with 10 of North America’s leading environmental groups

19% of our power is self-generated green electricity

FSC = Forest Stewardship Council | SFI = Sustainable Forestry Initiative
CATALYST PROTECTS YOUR BRAND

**ETHICAL FIBRE SOURCES**
- All of our forest fibre comes from well-managed, sustainable North American Forests
- Forest fibre sources include sawmill waste chips, forest logs, pulp logs, and recovered paper
- We offer FSC®, PEFC™, and SFI® chain-of-custody certification

**GREEN PIONEERS**
- One of North America’s leaders in responsible paper products
- Early innovator in light-weight papers which provide more printable paper using the same raw materials

**SOCIAL RESPONSIBILITY**
- Implementing mill safety programs to deliver improved employee safety
- Active outreach and partnerships with Indigenous Peoples and local communities

**AWARDS**
- Corporate Knights Top 50 Best Corporate Citizens in Canada from 2007 to 2017
- EarthCare Award from the Sierra Club U.S. honouring individuals or organizations that have made a unique contribution to international environmental protection and conservation

**COLLABORATION**
- Great Bear Rainforest partner since 1998 with Greenpeace, Sierra Club, and STAND — with 85% of this globally unique forest now protected from industrial logging
- World Wildlife Fund Climate Savers partner since 2005

**LEADING MANUFACTURING**
- Our mills use environmental management systems and best-available technology to minimize emissions

**INNOVATIVE PRODUCTS**
- FDA certification on select products
- SAGE carbon-neutral on select products

**ABOUT CATALYST PAPER**
Catalyst manufactures a broad range of printing papers such as coated groundwood, supercalendered, directory, newsprint, and specialty papers, as well as market pulp.
