Catalyst's Port Alberni Division is located at the head of picturesque Alberni Inlet on the west coast of Vancouver Island. With about 280 employees, this division plays an important role in the cultural, social and economic health of this community.

## Innovative, High-Quality Products

- » Electracote™, consistent, reliable and predictable product results in outstanding pressroom performance and printability. Excellent snap and bulk properties to deliver premium print quality with the look and feel of heavier papers
- » Catalyst™ Directory paper, recognized for excellent pressroom performance at low basis weights and used to print telephone books, airline schedules and catalogues
- » PEFC chain-of-custody system allows the division to offer select products that contain 100% fibre certified as coming from sustainably managed forests

## Caring for the Environment

- » Committed to continually improving environmental performance: environmental management system registered to ISO 14001 standard
- » Recently conducted operational water audit, with focus on identifying opportunities to reduce fresh water use and increase water recovery
- » Implementing Clean Production Initiative, developed in partnership with World Wildlife Fund Canada in order to better quantify, prioritize and reduce mill emissions
- » Implementing Forest Stewardship Council chain-of-custody certification
- » Participating in multi-stakeholder Somass Basin Water Management Forum
- » Detailed mill-specific environmental performance data included in Catalyst Sustainability Report: [www.catalystpaper.com/investors/sustainability-reports](http://www.catalystpaper.com/investors/sustainability-reports)

## Economic Impact

- » 278 employees at the end of 2010; and paid \$37 million in salaries, wages and benefits, \$5.0 million in property taxes and \$8.5 million in spending with local vendors that year
